for tomorrow belongs to those who prepare for it today”***

Hi children,

Summer Vacation is a welcome break..... breaks free from fixed schedules, rules and regulations of school, freedom brings more responsibility, keeping this in mind, we have planned most of the activities for you to keep you engaged positively and your energies well directed.

**Here are some ways by which you can make your holidays fun and learning at the same time:**

- Go for a walk with your family, talk about things you see around.
- Be an eco-friend: Plant at least one plant and take care of it during the holidays. Try to visit a nursery and observe the variety of plants you see there.
- Play outdoor games: Computer games are good they sharpen your intellect but what about the rest of your body. You need some exercise, don't you? Go cycling, play badminton, cricket, etc. anything which will make you fit.
- Care and Concern: Look after your grandparents, parent, younger brother and sisters. Help parents in small household chores like dusting of the house, cleaning wardrobes and watering the plants.  
Make these a part of your personality.
- Converse in English as much as possible.
- Improve your handwriting. Practice handwriting daily (one page)
- Read extensively to enhance your communication skills and list out the titles you read during holidays.

**Few guidelines for the parents and the students:**

1. Let your child do his/ her homework. You can act as facilitators.

**2. Make Multiplication House for tables of 4, 6, 7, 8 and 9:**

**Procedure:**

- 1. Students need to draw a picture of house, cut out the windows & then glue onto another piece of paper. The answers are then written under the window flaps.**
- 2. To cut out the windows students can slightly fold the paper, cut a small slit, unfold and then continue to cut the opening.**
- 3. Alternatively, and an easier option, is to cut out window shapes from another piece of paper and simply glue or tape the windows to the houses, so that they can still be lifted up to reveal the answers underneath.**
- 4. Students write the answers inside the flap and the number to which it is multiplied is written on the flap.**
