

Subject: JUNE 2020 – THEMATIC - TECHNOLOGY MONTH

Dear Parents

Greetings

Education has taken a huge leap to go online; into virtual classrooms and campus. Sailing with the tide, Al Ain Juniors has decided to dedicate the month of June 2020 as a month of Technology where students have an opportunity to invent and innovate while working remotely from their own home.

The Department of Information and Communication Technology has planned in detail to facilitate maximum participation of students and to provide a platform for them to experiment what they have learned in the classrooms. The details of the competitions are mentioned below. We request parents to encourage your wards' inquisitive minds to explore the world of technology by supporting them.

Grade	Topic	Theme
Grade 1	MS Paint – the students will be making/creating an art based on the theme.	Things around you
