Policy Aim

To encourage and support students to attend school regularly and punctually.

Principles

- At the heart of the Attendance Policy is AJS' determination and dedication to provide a high standard of education for all its students, so that student attainment and development is fulfilled and we ensure 'Success for All'.
- An electronic registration system is used to generate live data which enables staff to take speedy and appropriate action.

Objectives of the Policy

- Ensure that mental health is prioritized and integrated in all aspects of the school environment.
- Encourage schools to adopt a community-wide approach to promote mental health through awareness campaigns and initiatives aimed at all stakeholders.
- Support early identification and intervention by establishing systems and protocols for identifying and addressing mental health concerns early

In line with the ADEK wellbeing policies. The policy includes the following elements:

- Student Awareness and Education: A clear approach and plan ensuring that students learn and understand how to live balanced and healthy lives, including activities to promote and maintain mental health.
- Student Counseling: The provision of in-school or outsourced qualified specialist services to students who may require additional support or counseling.
- Referral Pathways: The procedures through which individuals can refer themselves or others for the mental health support services offered by the school.
- Support During Vulnerable Phases: Step-by-step approach to support students in managing and alleviating stress during vulnerable phases of the academic year.
- Wellness Resources: The provision of appropriate resources, such as a wellness space, that provide opportunities for students to focus on their wellbeing (e.g., reduce stress and anxiety).
- Inclusion: Tailored, needs-led services for students with additional learning needs, in line with the ADEK School Inclusion Policy and the Federal Decree Law No. (29) of 2006 on the Rights of Persons with Disabilities and its amendments, and planned programs and initiatives to promote inclusion.

Mental Health Awareness and Education

Educating Students About Mental Health: School teaches students about mental health and living healthy, balanced lives, with a focus on increasing protective factors and developing coping mechanisms. This shall include mindfulness, social and emotional learning (including emotional regulation and resilience), stress management, time management and organization, and the importance of creating a receptive environment for those seeking mental health support and avoiding actions that can lead to stigmatization.

School ensures coverage of health education requirements as per the National School Health Screening Guideline (MoHAP, 2003) and the School Screening Standard (DoH, 2023). In addition, for students in Cycles 2 and 3, topics should also include other types of mental health difficulties (e.g., depression, anxiety) and related coping mechanisms (e.g., surrounding parents' separation/divorce), substance use (misuse, abuse, and addiction) and its prevention and treatment, eating disorders (including causes, indicators, and treatment), digital gaming addiction, suicide and suicidal ideation, any maltreatment concerns, and ways to access help.

Parental Awareness: Schools informs parents of their students' mental health policy, and initiatives, and offer engagement opportunities, including facilitating and disseminating awareness materials/resources, holding workshops, and encouraging parent participation in surveys on mental health issued by other stakeholders.

Counseling and Support Services

Mandatory Provision of Counseling: School provide all students with access to counseling as required and ensure each step of the counseling process is documented as per requirements in line with the ADEK School Reporting Policy.

School has authorized school counselors internally as staff members in order to provide students with access to counseling to address their mental health.

Confidentiality: Schools and counselors adhere to confidentiality requirements as per Federal Decree Law No. (45) of 2021 Concerning the Protection of Personal Data, the DCD Social Care Professionals Code of Conduct & Ethics in the Emirate of Abu Dhabi (DCD, 2020), and other relevant government authorities.

School authorize school counselors to share information with relevant stakeholders (e.g., parents, principal, and vice principal) where the school counselor deems this is required to protect the best interests of the student or where this is required legally.

- In cases such as suicidal ideation or severe substance abuse, the school counselor shall immediately inform school leadership to take further action.

The school counselor shall explain to the student the limitations of confidentiality in age-appropriate terms.

Parental Consent: School seeks consent from parents if regular or structured counseling is provided to a student. Where the need for counseling is identified but parents refuse to give consent, schools shall require them to indicate their decision in writing, with an acknowledgment that they will take responsibility for the wellbeing of the student.

Parental consent shall not be required when a student interacts with the school counselor(s) in an unstructured or irregular manner (e.g., a spontaneous conversation regarding daily life, or unplanned drop-ins).

Parental consent shall not be required if the counselor deems it to be in the best interest of the student, i.e., in situations where informing parents may adversely affect the wellbeing of the child. Where a parent refuses to give consent and the counselor and school determine that access to a counselor is a necessary measure to prevent potential significant harm to the student, schools shall report this as neglect to the Child Protection Specialist and/or Child Protection Unit, in line with the ADEK School Student Protection Policy.

Referral Policy

- We recognize that all matters relating to Child Protection are confidential
- The designated staff will disclose information about a pupil to other member of staff only if it is necessary to do so.
- All staff must be aware that they cannot promise a child to keep secrets.

Responsibilities Of All School Personnel

All school personnel are especially well placed to observe changes in behaviour, delayed development or outward signs of abuse in children. In situation where school personnel suspect abuse, they should ensure that such concerns are reported in accordance with the procedures outlined in this policy. Under no circumstances should they take unilateral action and all actions and interventions must be documented in detail.

The main role of the designated teacher/person is to refer suspected abuse or allegations to the authorized personnel. To be effective they will have:

- received training on how to identify abuse and know when it is appropriate to refer a case
- make themselves known to all members of school staff
- ensure those members of staff have annual training in child protection relevant to their needs and are able to identify and report any concern they have to the designated teacher/person immediately they arise
- ensure all members of the staff has access to and understand the school's Child Protection Policy
- ensure the AJ Group's Child Protection Policy is updated and reviewed annually in collaboration with external authorities
- keep detailed, accurate, secure written records of referrals or concerns
- provide parents with a copy of the Child Protection Policy which alerts them to the fact that referrals may be made and the role of the school
- ensure they are kept apprised of changes in UAE law and ADEC regulations regarding child protection

Types Of Abuse:

Physical	<p>Physical hurt or injury usually caused by hitting, shaking, kicking, pushing, pinching, burning or biting. In sport, physical abuse may occur when the nature and intensity of training disregards the capacity of the child's immature and growing body.</p> <p>Shouting at a child is a form of assault.</p>
Emotional	<p>Bullying in any form: name-calling, threats, denial of rights normally accorded to others, cyber-bullying, teasing, taunting, threatening, hitting, exclusion, or extortion. Physical and verbal attacks either in private and must not be ignored. Bullying may be a single incident or repeated actions, and may be initiated by an individual or a group. Note: Overt sarcasm by adults, is a form of bullying because it affects the emotions of the person it is directed towards.</p> <p>It also involves persistent emotional ill treatment of a child, likely to cause severe and lasting adverse effects of the child's emotional development. It may involve telling a child they are useless, worthless, unloved, and inadequate.</p>
Neglect	<p>The persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development, such as failing to provide adequate food, shelter and clothing, or neglect of, or unresponsiveness to, a child's basic emotional needs.</p>
Sexual	<p>Involves forcing or enticing a child to take part in sexual activities, whether or not the child is aware of what is happening. The activities may involve physical contact, including penetrative or non-penetrative acts. This may also include involving children in looking at, or in the production of, pornographic material, or encouraging children to behave in a sexually inappropriate ways.</p>

Indicators Of Abuse

A child may be exhibiting signs of abuse if:

- they provide specific information that they are the victims of abuse;
- unexplained or suspicious injuries such as bruising, cuts or burns particularly if situated on a part of the body not normally prone to such injuries;
- an injury for which the explanations seems inconsistent
- unexplained changes in a child's behaviour e.g. becoming upset, quiet, withdrawn or displaying sudden outbursts of temper;
- difficulty in making friends;
- being prevented from socializing with others;
- behavioral changes such as reduced concentration and/or becoming withdrawn, depressed, tearful, emotional instability, reluctance to go to training or competitions;
- Consistent evidence, over a period of time that a child is suffering from emotional or physical neglect.

Third Party

An account of person who saw a child being abused must be treated seriously whether this comes from an adult or another child. Abuse rarely happens in public and hardly ever permits corroborating statements. This does not discount the veracity of the account.

Handling Disclosures From Children

An abuse is likely to be under severe emotional stress and a staff member may be the only adult whom the child is prepared to trust. Great care should be taken not to break that trust.

When information is offered in confidence, the member of the staff will need to reassure the child and retain his/her trust, while explaining the need for action and the possible consequences which will necessarily involve other adults being informed. It is important to tell the child that everything possible will be done to protect and support him/her.

Basis for concern must be established as comprehensively as possible, the following must be followed by the school personnel to whom a child makes a disclosure of abuse:

- Listen to the child;
- Offer reassurance but not make promises;
- Allow the child to recall significant events;
- Explain that further help may have to be sought;

- Record the discussion accurately (see next section) and pass this to the designated Child Protection Officer (no tapes or conversations may be made as this contravenes the law).
- Ensure any records they keep are secure and confidential.

Records And Monitoring

When child abuse is suspected, it is essential to note carefully:

- What has been observed - signs of physical injury should be described in detail and if appropriate, sketched. Under no circumstances should clothing be removed.
- When they observed it.
- Any comment by the child concerned, or by any person about how an injury occurred should be noted, preferably quoting words exactly used, as soon as possible after the comment has been made. The written record should be checked for accuracy, signed and dated by both the recorder and the person making the allegation. All records created should be regarded as highly confidential and retained in a secure location.

Actions To Be Taken

School Personnel

If a school employee receives an allegation or has a suspicion that a pupil is being abused the school employee should, in the first instance, report the matter to the Designated Person in the school.

Serious allegations of sexual misconduct by staff, volunteers, and/or invited visitors shall be directly reported to the Police and FCA and the concerned.

Designated Person

If the school employee and the designated person are satisfied that there are reasonable grounds for the suspicion or allegation, the designated person should report the matter to the management immediately.

Private Tuition

Private tuition is banned in the emirate of Abu Dhabi and across the UAE and authorities have made repeated statements regarding this fact. The staff at AAJ Group of schools are not permitted to carry out private tuition as the management believes all students are entitled to full and equal access to good teaching and that this is best carried out during the school day. Parents will be sent a letter at the beginning of each year reminding them that they must not solicit the staff of the AAJ Group of schools to conduct such tuition either in their homes or in the homes of staff.

School staff have been warned of the dangers of conducting private tuition including:

- Malicious allegations
- Pressure to act corruptly
- Tiredness

- Removal of 'Professional Distance'

Parents and staff who disregard school directives regarding private tuition therefore understand that they accept full responsibility for any actions that may arise. The AAJ Group of schools accepts no responsibility in such instances.

- issue their personal email identity to students(or their parents)
- issue their mobile or land line telephone numbers to students(or their parents)
- contact a student outside school hours for personal reasons(unless related to the student)
- solicit or engage in 'friendships' with current students on social networking sites, such as Facebook or Twitter
- Staff are advised to be extremely careful in posting personal details on such sites and should take steps to limit public access to their details

Personal Space

All staff must be aware of their proximity to students so as to avoid potential allegations of inappropriate contact. They must always consider the age and gender of the child, the situation they are in and the location of their interaction.

Where meetings take place between staff and students, doors should remain open and/or a third party be present.

Staff Code Of Conduct

School staff is not expected to—

REPORTING CHILD ABUSE – FLOW CHART

Intervention

There will be circumstances where staff must intervene to stop a child injuring themselves or others, or damaging school property. Reasonable restraint at the lowest possible level may be used. However, it is preferable to seek advice or ask for a senior member of staff to attend.
ADEK Regulations Regarding Physical and Verbal Abuse of Students

The regulations are very clear:

“ADEK will not tolerate maltreatment of students, which includes both physical and verbal abuse, in any way.”

If a staff member is suspected of inappropriate behavior towards a child:

- The matter must be reported to senior staff, however minor;
- Senior staff will inform ADEC of the allegation and ensure a full investigation is carried out;
- The staff member who is alleged to have engaged in inappropriate behavior towards a child will be asked to write a statement, which they must sign and date. A copy will be given to them.
- Depending on the severity of the allegation, and on the advice of ADEC, the member of staff may be suspended from duty. This means they will not be permitted on school premises until notified they may return. During the period of suspension, the staff member may not, under any circumstances, contact the victim or their parents, or any witnesses.
- In the event the allegation is proven, and on the advice of ADEC, the member of staff may be terminated. In this instance the termination will be effective immediately.
- In very serious cases involving the police, the school will cooperate with such authorities.
